

Wembley Business Centre

Walkthrough/ Animation Storyboard

26th September 2022

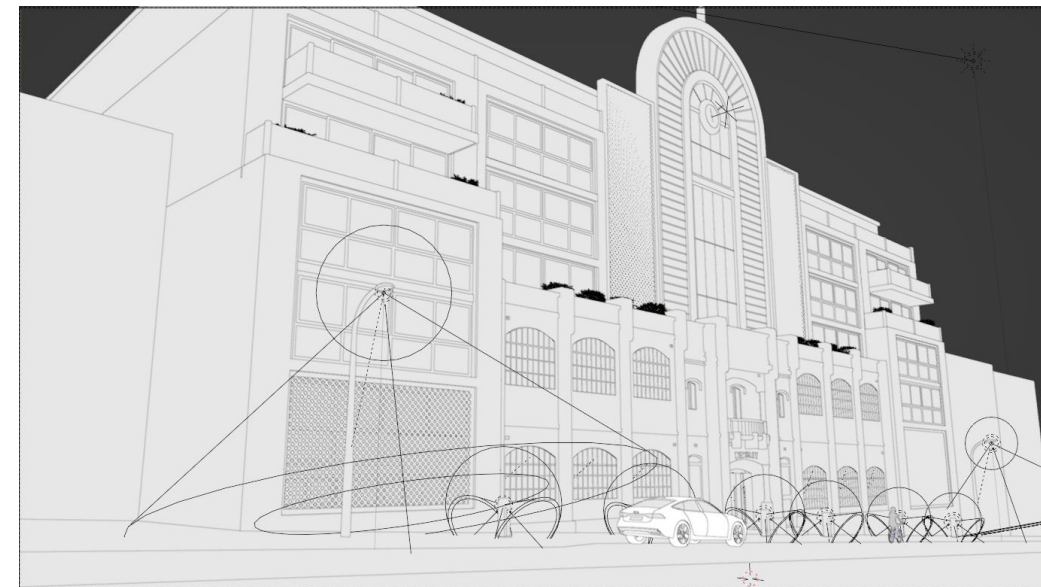

Summary

The scope of this storyboard is to act as a visual representation of the final animation prior to any final commitments being made.

The key highlights of this animation that would best showcase the Wembley Business Centre (WBC) as an attractive commercial office space were identified to be the facade, the main lobby, the office space footprint itself, underground parking, the penthouse level and terraces.

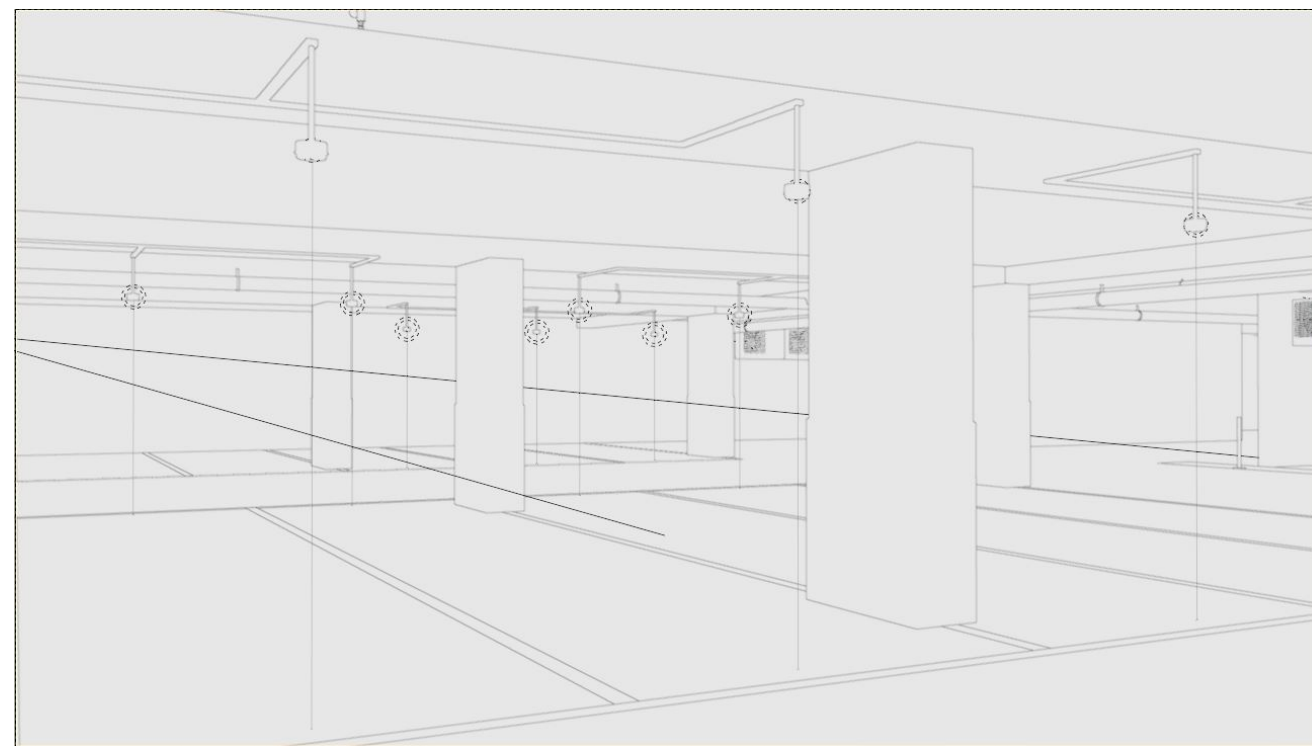

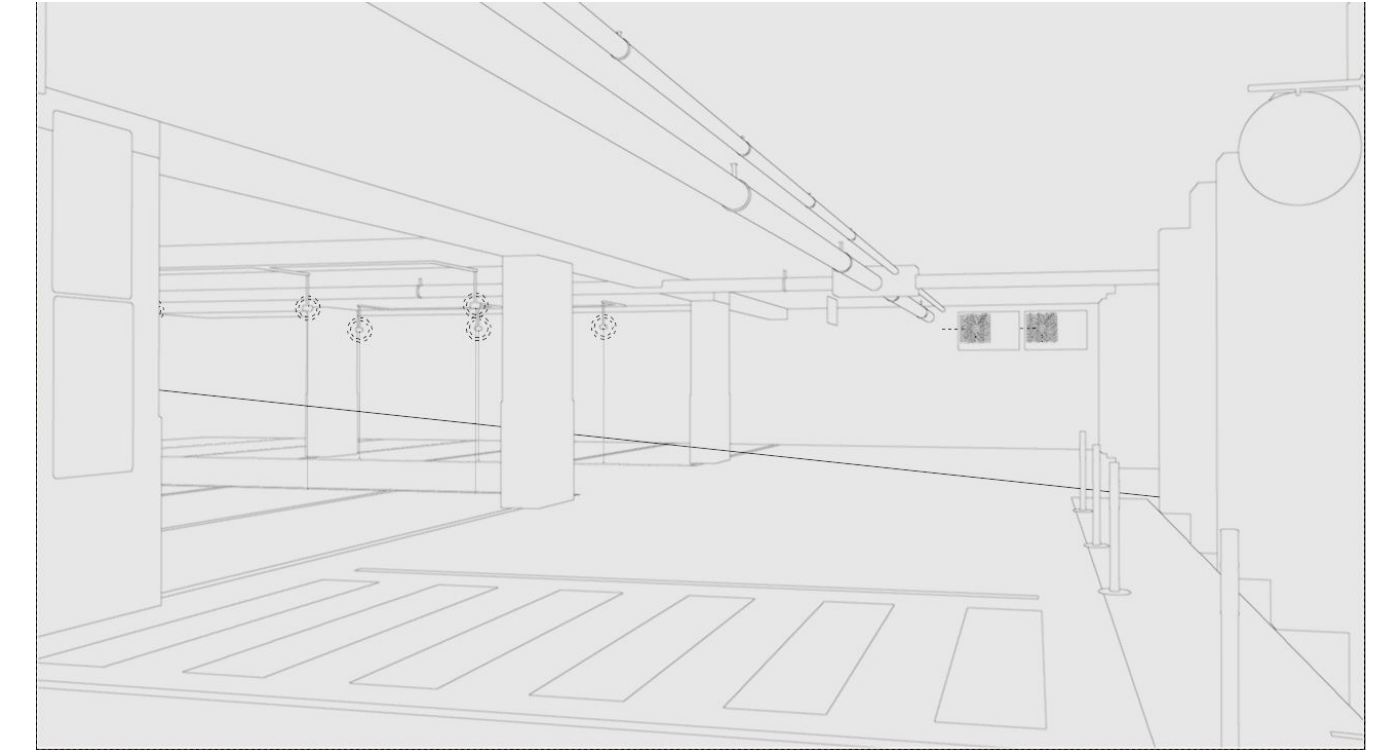

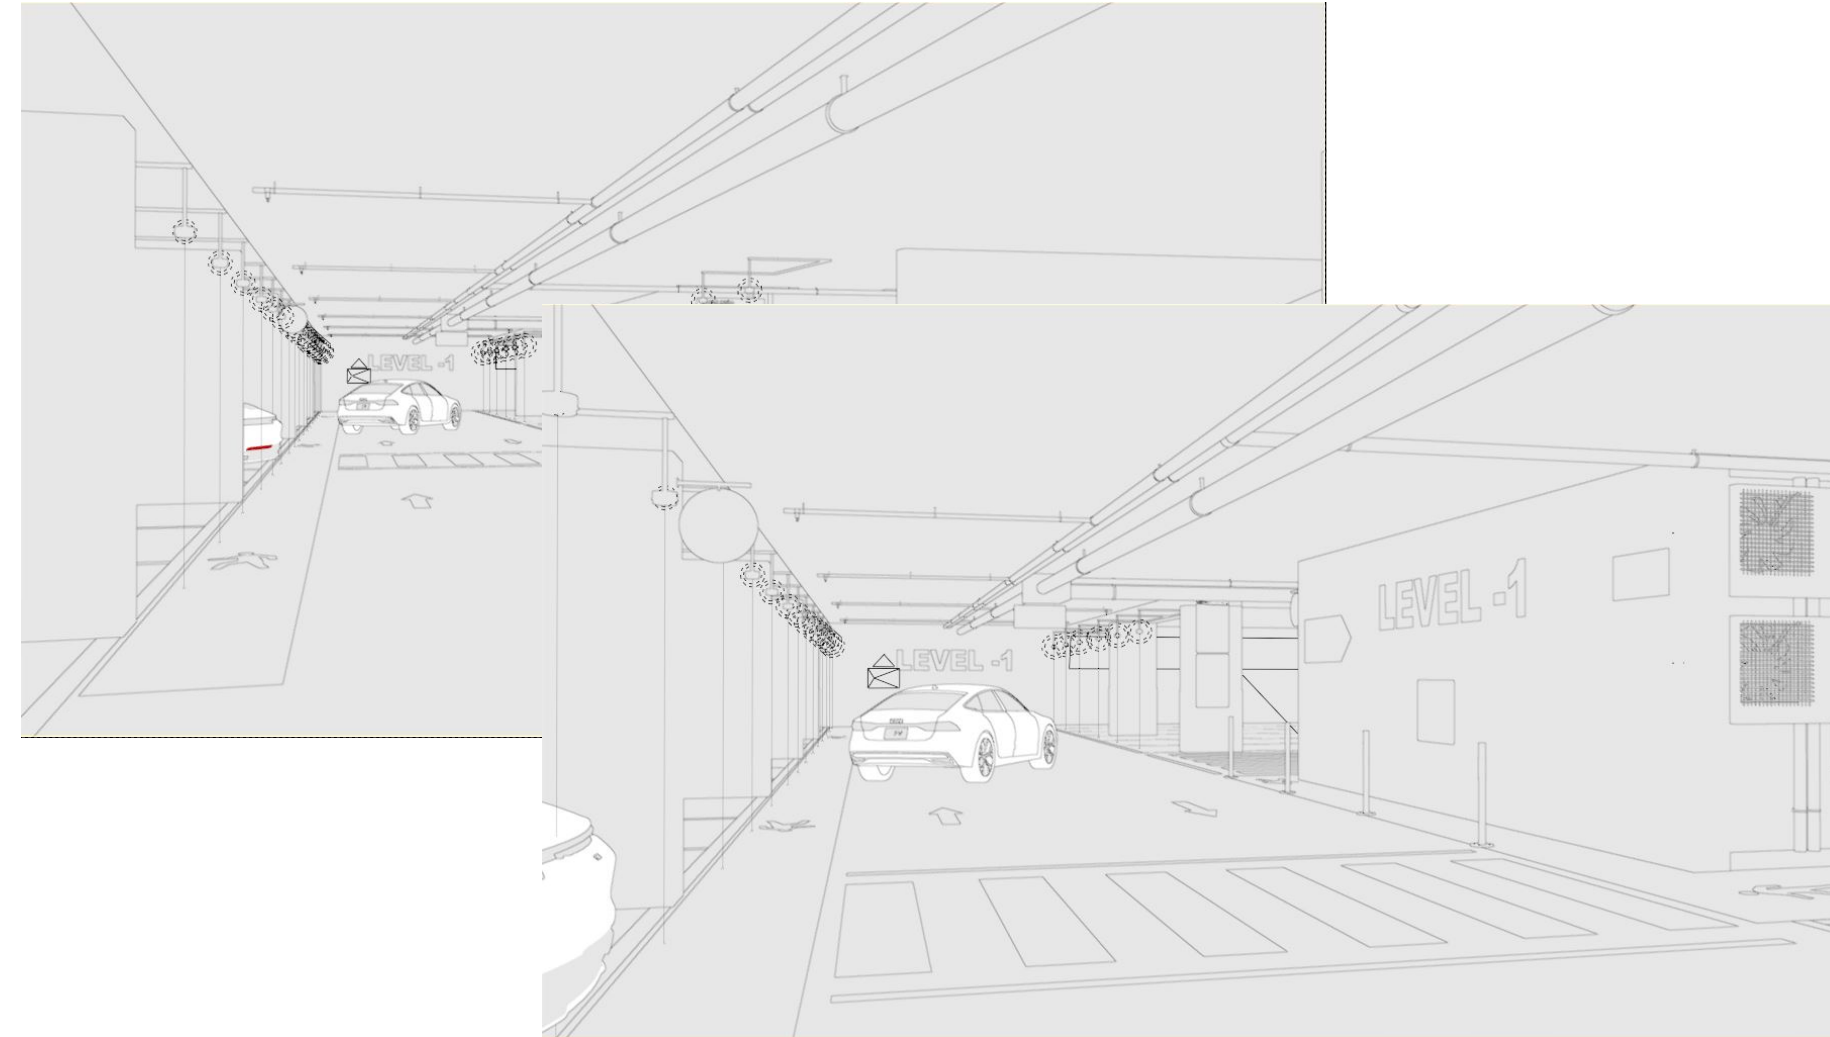

The storyboard presented here is currently representative of a 121second-long animation, which is subject to slight alterations during the post-production phase; not with regards to duration, but with a slight variation to the scenes represented herein.

Facade Introduction / showcase
